A FATAL secident occurred on board the German steamer Lawang, off Kowloon Wharf, this morning. It appears that a German cook, aged 25, was emptying slops through a port-hole near the Lewang's galley at 4.30 this morning, and somebow he lost his footing and slid through the port into the water. A strong current runs past the wharves, and the unfortunate man being unable to swim was quickly swept past the wharf and drowned before assistante was had ble . Un to the time of

SAYS the Jopan Advertises of Dicember 25th -The fire that occurred on Friday at the Temma Mills, Osaks, was, as already briefly reported, a most destructive outbreak. The flames were first discovered in the south-west corner of the older mill of the two owned by the company, and though a plentiful supply of water was forthcoming from the large tanks, it was found impossible to save the building. The mill was the oldest of its k'nd in Osaka : it covered considerably over an acre of ground, and contained ten thousand mule and six thousand ring spindles. A hundred men and seven hundred women and girls are thereby thrown out of rmployment.

As is usual at this season of the year cur office has recently been inundated with scores of useful and, in most cases, chaste calendars and elegant date blocks. Sin Thomas Wade recently speculated on the the possible future of China under Japanese sule, and arriv d at the conclusion that the Chinese would not submit to a Japanese dynasty as readily as they did two contories ago to the Manchus. The Manchu, as Sir Thomas reminds us, had been the studious disciple of China for half a century before he replaced the Ming and was to a great extent in sympathy with Chinese manners and customs. The Japanece, on the other hand, have little love for the Chinese, and are in their turn thoroughly hated by the Chinese of all rankr. In a word Sir Thomas Wade apprehends that hurried change of system, such as would be forced upon the Chinere by the Jamanere. would be likely to produce a general rebeilion. The speculation appears quite profities as we can scarcely regard it as possible? Japan will be permitted to assume control of this vast country | even were she able to " net thems." which is more than doubtful ; at a time when the European powers are jealously guarding their respective interests in Eastern Asia.

DARING HIGHWAY ROBBERY KOWZOON.

Three Pathan warriors of the Hongkong Regiment, namely, Privates Rambus, Mokurba Kan at the Ordinance. He admits furnishing the and M. Selman, were charged before Mr. Hastings | morphing. at the Megistracy to-day for robbing J. F. Mr. See Abral am of \$-5, a watch and chain, a purse containing one pawn-licket for two gold rings and a key, in all of the value of \$47, near or two later Mr. Handle we had a Hungham Docks last night. According to the complainent's evidence it appears that he west to Ch nese Kowloon to gamble at the castnes there. In the "hell" in which he elected to buck the kong Regiment. Indians black them, and deliberately set upon the completenst, whem they knecked down, gagged and 'skinned' of all his money and valuables. He Mentified the first defendant as the most will went through his pockets,

PC W. Findley, of Hungham Station, stated that the complement: whom he met on the highway just night, informed him he had been robbed by Indiana, and price to meeting the victim of this entrage he was passed on the road by several Indians who were going in the direction of British Kowleeb.

At this point the further bearing of the charge was adjourned till Monday at the request of th

INTERESTING MORPHINE

DE GRANDMAISON.

In our last issue the following letter, which speaks for itself, was published by request of M H, Mancell, Secretary of Messrs. A S. Watson & Co's well known firm :--

THE DEATH OF BARON DE GRANDMAISON. To the Kritor or The "Houseon The Bearing SIR.—In connection with this matter, which

has been fully noticed in your columns, we bek to inform you that Mr. H. G. Stevens, the member of our staff who dispensed the morphia has this day received a summons to attend at the Police Court to-morrow, the ard instant, at ten o'clock in the forencon to answer a charge. that on the 24th day of December, 1894, he "did anisminity inthists a dannilly of spoughter to person not a duly qualified practitioner, abemist or druggist, contrary to Ordinance 13 of 1803." This action has been taken under the local Morphine Ordinance which was passed last you to prevent ignorant coolies from using morphic subcutaneously, and as the case is one of much public interest we request that you will be good

Owing to the cheumstance of to-day heing tunately, to obtain legal advice for Mr. Stevens responsibility in the matter and considers that action, if any, should have been taken against it through its General Manager.

We are, Sir, Your obedient servants. A. S. WATSON & CO., LIMI ED.

The Hongkong Dispensary, and January, 1895. The summons referred to in the above letter did not state which section of the Moreh no Ordinance debarred Mr. Stevens from supplying the morphine to the late Baron De Grandmeison -who was in urgent pain when he applied at Messrs. A. S. Watson & Cu's store for the drug and had, according to the evidence led at the recent Coroner's inquiry into the circumstances attending his death on the 18th altimo, been in the habit of using morphia for some time past, - neither did it state the time when the alleged offence had been committed. It was, however, clearly set forth that Inspector George Hennessy, who worked up the evidence addured at the magisterial inquiry, was in Court themsehout the proceedings and heard Mr. H. E. Wodehouse, at the conclusion of the inquiry, say-" I am sorry that the dispensation of this morphia, which was evidently dispensed in perfectly good faith, has led to this sad futality. There has no doubt been a distinct and it must be some satisfaction to the dispense after a medical practitioner had been called in With regard to the facts of the case, there appears to me to be little doubt that the deceased took this overdose of morphia accidentally, that it was not taken with any intention of committing suicide, and that when it was taken deceased was in sound mind. My firding therefore ! that he died from an overdose of morphia, self administered, the overdose being probably due to recident," took out the summons against Mr.

It appears, however, from the proceedings in the Police Court to-day that what Mr. Wodehouse referred to in his 'finding' was a breach of section 4 of the Morphine Ordinance, 1893, which reads as follows :--

Any person, who shall, except in cases where morphine has been prescribed by some duly qualified medical practitioner. furnish morphine to any person, except to a duly qualified medical practitioner or to a chemist or druggist shall, on conviction before a magistrate, be liable to a fine not exceeding fifty dollars, or to imprisonment with or without hard labour not exceeding two months. The onus of proving the exception shall lie on the person furnishing morphine as aforesaid. Provided that this section shall not apply to the furnishing of morphine for the purpose of long file experiation.

Upon the face of it, therefore, it appears pesfrom an expression of opinion ewing to common fairness to all parties it is necessary to here quote the preamble to the Ordinance in question, the full text of which reads thus ;-"Whereas it is desirable to forbid, in the Colony, the area ice of injecting morphine except in cases where such treatment has been prescribed by some duly qualified medical practitioner, and to make provision for effectually suppressing

These then are, briefly stated, the facts of a case which has created a good deal of commotion is business circles to-lay and of which the fellowing is a report of the proceedings in the Police Court:---

At ten o'cleck this morning Mr. H. G. Stevens. chemist in the employ of Me; ara. A. S. Watson and Co., Ltd., spreased before Mr. Hastings in response to a magisterial billet dour in which it was stated he had unlawfully furnished a quantity of merphine to a person not being a duly qualified practitioner, chamist or dimenist. He was accompanied to the ber by Mr. J.D. "time" was called Mr. Stevens stood as in front throughout the proceedings. There was no lear, assesses to very little.:-learned counsel" in Court to plead, in touch. Usually, said Mr. Cowen, I have had to intering language, for his client to be allowed a view other people, so I have decided ideas about the trying ordeal sapitally. In reply to the would question " do you admit

He entirely approves of my confact it the matter, and considers I used a wire discretionery nower under the circumstances entirely supports my action and wishes to take all the responsibility on bimself as acting for the Company. The summons was served upon me yesterday, the and instant, at a time when it was quité impossible for the General Manager to get a legal opinion on the matter : It is made return able to-day: a mail day, when everybody is

business has important duties to perform in connection with the mail. Under these circumstances I beg to apply for an adjournment on the following grounds :-(a.) That legal advice on the matter may be taken as to whether the name of the General Manager shou'd not be substituted for mine. (b.) If this cannot be done, reasonable time

should be allowed to call witnesses who may be

absent from the Colony on boilday leave. I would suggest to your Worship that as the General Menager of the Company exonerates me from all blame in the matter, it is only fair to A. S. Watson & Co. that the charge should be made sgainst the firm or the General Manager to enable him to benefit by my evidence as a witness, which, of course, I could not give so well on my own behalf. eyldence, moreover, of the medical men nected with the case will have to be called, and this cannot possibly be done at such short notice. Under these circumstances I ask for an adjourn-

WASHINGTON, November 27th. The Secretary of the Navy in his annual report to the President recommends that Congress be Mr. Bayard alluded to the honest debt the asked to authorise the construction of three battleships of about 10,000 tons displacement each to cost, exclusive of armaments, not exceeding \$4,000,000 each and 12 torpedo boats of from 100 to 300 tons each, at the discretion of the Secretary of the Navy, to cost, not exceeding an average of \$170,000, or a total expenditure for naval increase of \$14.040,000.

His arguments in favor of this are the following: The United States has an efficient fleet of cruisers and gunboats which, while ureful, are not, properly speaking, fighting vessels. They an enemy's fleet, and if scattered would not furnish a battleship of even a torpedo boat for the defence of each coast city. He condemn the Congressional policy, which annually pays morehant vessely, such as the Paris and New York, a subsidy on condition that they hold themselves in readiness to serve the Government whenever demanded, yet provides no aramament for them. When they hauled down the English to holst the American flag, he says, they were receiving pay from the British Government to hold themselves in readiness to serve that nation, and the English had guns and gun mounts ready to put upon them at a moment's notice. Congress has now been paying subsidies to these shirs for months and have not a gun to

put on them. Under treaty provisions neither the United States nor the English can keep more than one small naval vessel upon the northern lakes. So far the two countries are matched. In case, however, a war should unfortunately break out between them, Great Britain could promptly fornish guns and gun mounts to her merchant marine of the lakes, and though their marine is far inferior to ours in strength, the British might master those waters and do incalculable damage to our lake cities. If we had a reserve of ordnance and ordnance stores we could dominate these waters without question,

The latest and one of the most impressive lessons is all bistory is now being taught by China and Japan. A nation, the most populous in the world, able to per millions of fighting men into the field, is now, after suffering many disasters, scouling Europe and America for munitions of war. It relied upon its numbers. now it is buying discarded arms and discarded ammunition, whatever it can get to aid it in repelling the assaults of a people vastly inferior to it in number.

He also renews his recommendation of last year that the culisted force be increased by 2,000 men, as absolutely essential to efficiency. VIENNA, November 27th.

Prince Windlichgreiz, Austrian Prime Minister, informed the Electoral Reform Commission to-day, that the conference on electoral reform with delegates of the coalition parties had been without result. He said that if the Commission should prepare a project accepted by the coalition, the Government would acquiesce In it, provided it were based upon the fundamental Austrian principle of the division of the electors into social strata. Universal suffrage, he said, was in idmissible.
